CAREER OBJECTIVE

Motivated and detail oriented Software Developer with a robust foundation in C++, Java, and Data Structures & Algorithms. Ambitious Bachelor of Engineering (Hons) Computer Science & Engineering student specializing in AI & ML. Proven ability to integrate Generative AI tools and Large Language Models into software solutions. Seeking a challenging internship to apply my problem-solving expertise and technical skills toward building scalable, high-performance software in a fast paced engineering environment.

EDUCATION

Bachelor of Engineering in Computer Science & Engineering (Artificial Intelligence and Machine Learning):

Chandigarh University, Mohali, Punjab SGPA: 8.68 (2025–2029)

Intermediate (ISC):

St. Joseph Inter College, Thakurganj , Lucknow -88% (2023–2024)

High School (ICSE):

St. Joseph Inter College, Thakurganj , Lucknow -85% (2021–2022)

PROJECTS

Plant Emotion AI App :

DEC 2025-Ongoing

- Building a fully responsive app that captures every details of growing plants.
- Build a prototype to test the feasibility .

SKILLS

Technical Skills: C/C++, JAVA, HTML ,CSS

Development Tools: VS CODE, GitHub, Git

INTERPERSONAL SKILLS:

Communication , Adaptability , Problem Solving

ACHIEVEMENTS

- Qualified and secured 3rd Rank in **CODE CONTEST** organized by **Enginow**.
- Earned a **Top performer** batch in **Net Clan Monthly Contest**.
